1) Ngamkham T, Volodin A, Volodin I. Confidence intervals for a ratio of binomial proportions based on direct and inverse sampling schemes // Lobachevskii Journal of Mathematics. - 2016. - Vol.37, Is.4. - P.466-496 2) Zaikin A. A d-posterior statistical classification procedure for the problem of reservoir facies determination / A. Zaikin, R. Salimov, I. Kareev, S. Usmanov // International Multidisciplinary Scientific GeoConference Surveying Geology and Mining Ecology Management, SGEM. - 2016. - Vol. 4. - pp. 19-26 3) Kareev I. Lower bounds for the expected sample size of sequential procedures for selecting and ranking of binomial and Poisson populations // Lobachevskii Journal of Mathematics. - 2016. - Vol.37, Is.4. - P.455-465 4) Salimov R. Sequential procedures for assessing the percentage of harmful impurities with the given limitations on the accuracy and reliability of statistical inference / R. Salimov, E. Turilova, I. Volodin // International Multidisciplinary Scientific GeoConference Surveying Geology and Mining Ecology Management, SGEM. - 2016. - Vol. 4. - pp. 175-180 5) Dubrovin V.T, Gabbasov F.G, Chebakova V.J., Multidimensional central limit theorem for sums of functions of the trajectories of endomorphisms//Lobachevskii Journal of Mathematics. - 2016. - Vol.37, Is.4. - P.409-417 6) Ahmed, S.E., Kareev, I., Suraphee, S., Volodin, A., Volodin, I. Confidence sets based on the positive part James-Stein estimator with the asymptotically constant coverage probability // Journal of Statistical Computation and Simulation. - 2015. - Vol.85, Is.12. - P.2506-2513 7) Simushkin S.V., Exact statistical inferences and Monte Carlo method//Lobachevskii Journal of Mathematics. - 2014. - Vol.35, Is.4. - P.360-370
