

International Conference
Minlos – 90

International Conference Minlos – 90 is organized in memory of Robert A. Minlos on the occasion of his 90th anniversary at the Institute of Information Transmission Problems RAS on March 9, 2021

Programme

Morning session, 11.00

Afternoon session, 15.00

Opening. Воспоминания (Никита Введенская,
Владимир Тихомиров, Филипп Минлос)

Vadim Malyshev, Andrei Zamyatin
"Models of Life on Graphs"

Saidakhmat Lakaev
"Bose-Hubbard models with on-site and nearest-
neighbor interactions: Exactly solvable case"

Boris Gurevich
"Approximation of equilibrium measures
corresponding to infinite loaded graphs".

Sylvie Roelly
"Gibbs point processes on path space:
existence, cluster expansion and uniqueness"

Suren Poghosyan, Hans Zessin
"Some comments on an old idea of Minlos"

Valentin Zagrebnov
"Non-self-adjoint Gibbs semigroups"

Yuri Kondratiev
"Philosophy of natural numbers"

Boris Nahapetian, Linda Khachatryan,
"Description of random fields by systems of
conditional distributions"

Michael Blank
"Curing blow-up by random noise"

Anatoliy Vershik
"Two ways to define the probability"

Carlo Boldrighini, Sandro Pellegrinotti
"A review of results of our collaboration with
Robert Adol'fovich on RW in random
environments depending on time"

Yuriy Suhov
"New result on the hard-core model"

Воспоминания (Александр Кириллов)
